Outside Fundraising

Without receiving an increased share of the budget of the Research School of Social Sciences, the number of academic appointments in RegNet in RSSS increased from 5 in 2001 to 30 in 2004. The major factor in this was outside fundraising, much of it led by the RegNet Founder. RegNet raised AU\$35 million in outside funds during 2001-2004, about half of it going to network partners outside RSSS. Since 2005 has been a CI on 9 Australian Research Council Discovery, Fellowship or Linkage grants, participated in two ARC Research Networks and one Centre of Excellence.

Citations

In Linda Butler (2006) *Citation Analysis for RSSS Review*, the highest citations for any scholar in the 'Group of 8' research-intensive Australian universities, in the disciplines of the Research School of Social Sciences.

Found by a Cambridge University study (*Journal of Criminal Justice*, 1999) to be consistently in the 1990s the most cited scholar in "International Criminology Journals" (excluding US journals). See also *British Journal of Criminology* 1998, which finds ranking for citations in four leading criminology journals to rise from 11th for 1986-1990 to 5th for 1991-95. An update of this Cambridge research published by Cohn and Farrington (*Australian and New Zealand Journal of Criminology*, 2007, p. 348), found Braithwaite's citations to rise again from 5th place to 1st place among all criminologists in the world on this measure. On a more recent update by Cohn and Farrington, he has dropped to 4th place (*Criminal Justice Review* 2012). Since then, many more criminologists have moved past him as

few of his publications have been in criminology since the 1990s (see Cohn, Farrington and Iratzoqui, *Most Cited Scholars in Criminology and Criminal Justice* (2014)).

Wright et al reported in the *Journal of Contemporary Criminal Justice* (2001) that 4 of the 20 most cited works on white-collar crime were authored or co-authored by Braithwaite and that he was the most cited author in this sub-field.

4 publications with over 2000 citations in Google Scholar (over 14,000 for these 4), 26 with over 200 and a further 33 with over 100.
